DAVID MALLET – MASK No.2 LE VOLUME

With **Mask No.2 LE VOLUME**, David Mallett has developed a dedicated hair product to achieve volume and body in hair. An ideal solution especially for fine and thin hair, this ground-breaking treatment coats the hair, strengthens it, giving it structure and fullness.

The secret of full, lush and volumised strands? David Mallett’s new Mask No.2 LE VOLUME, the fourth product in his Volume hair care range, after Shampoo No.2 LE VOLUME, Spray No.2 LE VOLUME and the VOLUME POWDER, all designed to boost hair texture.

Mask No.2: LE VOLUME is **suitable for all hair types**, but maximum benefit appears when treating fine to very fine hair. The secret? We designed the mask to be extremely light so that it would not weigh hair down but instead, leaves it voluminous, fortified and perfect for subsequent styling. “Our Volume Mask is like a breeze of fresh air to your hair: each strand is full of life and feels fortified, with a voluminous bounce,” says Mallett who is the creative mind behind this.

The main active ingredient in this exclusive formula is **red seaweed extract**, which contains an unusually high concentration of amino acids and antioxidants, minerals and trace elements. The healing properties of the red algae have been recognised for some 2,500 years. Seaweed extract re-mineralises and restructures the hair fibre, stimulates hair growth and nourishes strands with calcium, iron and iodine. Marine extracts are also a rich source of vitamins A, K and B-12, a natural anti-inflammatory, and can also help restore the moisture levels to your skin.

The unique formula of Mask No.2 LE VOLUME also contains **hydrolysed wheat proteins**, well hailed for the fortifying properties to hair that has been weakened by chemical treatments or regular hair maintenance. Proteins improve hair elasticity by controlling the rate of moisture loss from the hair. Additionally, we have infused Mask No.2 LE VOLUME with **organic sweet almond oil** to nourish and reinforce hair – a few drops go a long way to add silkiness and shine to hair, and moisture to the scalp.

In contrast to conventional hair treatments, Mask No.2: LE VOLUME **does not contain silicones, harmful substances and other unnecessary ingredients** that would weigh down the hair.

INSTRUCTIONS: apply Mask No.2 LE VOLUME after Shampoo No.2 LE VOLUME to cleansed, towel-dry hair; distribute evenly through hair and leave in for 5 to 10 minutes. The product tends to harden the hair during application to achieve a thickening result. Once dry, your hair will gain extra volume and density. For best absorption, you can cover the head with a towel or a shower mask. Apply the mask twice a week, and for an even longer lasting result, combine it with Spray No. 2 LE VOLUME.

With its subtle fragrance of green tea, David Mallett’s **VOLUME MASK** has proven to be yet another highly effective professional product after a long testing phase in David’s eponymous salon in Paris. “Your hair feels thick, gets a bouncy finish and a silky shine – the best possible conditions for limitless styling and healthy hair,” says Mallett.

Keywords: Volume and body; without harmful and unnecessary ingredients; for all hair types; bouncy hair.
